SUPPLEMENTARY INFORMATION:

Background

The FAA published a final rule in the *Federal Register* for Docket No. FAA-2022-0245 (87 FR 72871, November 28, 2022), establishing RNAV route T-380 in the vicinity of Emmonak, AK. The effective date for that final rule is April 20, 2023. Subsequent to the final

rule, it was determined that the required flight inspection of T-380 was not completed due to weather conditions. The onset of winter weather conditions in Alaska will further impact the completion of flight inspections.

To facilitate the safe and continuous use of existing air traffic procedures and allow sufficient time for completion of the required flight inspection of route T-380, the effective date of this rule is delayed until further notice. The FAA will publish a document in the *Federal Register* announcing the new effective date.

Delay of Effective Date

Accordingly, pursuant to the authority delegated to me, the effective date of the final rule, Airspace Docket No. 19-AAL-49, as published in the *Federal Register* on November 28, 2022 (87 FR 72871), is hereby delayed until further notice.
